

Errata to “An Algorithm to Compute the μ -Bases of Rational Parametric Surfaces with Respect to One Variable”

The article [1] contains a few typographical errors, which are corrected as follows.

1. **Page 527, immediately after (2.7).** Replace the expression for $\mathbf{u}$ with

$$\mathbf{u} = (A_0, B_0, C_0, D_0, \dots, A_{n-1}, B_{n-1}, C_{n-1}, D_{n-1})^T.$$

2. **Page 528, first paragraph.** Replace $\mathbf{v}(\mathbf{u})$ with $\mathbf{v}(s)$ in the relation $(R(s), 0)\mathbf{v}(\mathbf{u}) = 0$.
3. **Page 530, the displayed matrix $H_2(s)$.** Replace $a_n^{(1)}$ with $a_n^{(2)}$.
4. **Page 531, Section 3.2.** In the sentence beginning “We recursively compute”, replace “ $P^{(k)}(s), = 2, \dots, n$ ” with “ $P^{(k)}(s), k = 2, \dots, n$ ”.
5. **Page 532, immediately after the display defining $T^{(k-1)}(s)$.** Replace $p_2^{(k-1)}(s)Q_k(s)$ with $T^{(k-1)}(s)Q_k(s)$.
6. **Page 532, equation (3.5).** Replace $S^{(n-2)}(s)$ with $S^{(n-1)}(s)$.
7. **Page 534, Algorithm 1, Step 3.** Delete “by removing the first row” from the definition of $Q_2(s)$.
8. **Page 534, Algorithm 1, Step 7.** Replace $P(s) = P(s) \cdot \text{diag}(I_{(n)}, L(s))$ with $P(s) = P(s)L(s)$.
9. **Page 539, first paragraph of Section 6.** Replace the citation [25] after “a general univariate polynomial matrix” with [16].
