

Errata to “On the stability of the dimensions of spline spaces with highest order of smoothness over T-meshes”

The article [1] contains a few typographical errors, which are corrected as follows.

1. **Page 7, proof of Theorem 3.1, $\Rightarrow$ part.** Replace $m(r)$ with $m(l)$ in the sentence introducing the counting notation.
2. **Page 8, caption of Fig. 6.** Replace v_9v_{10} with v_9v_{11} .
3. **Page 8, immediately before Section 4.** Delete the sentence:
Based on Theorem 3.1, we provide a sufficient condition for a diagonalizable T-mesh.
4. **Page 10, proof of Lemma 4.1, part (1).** Replace $k < n + 1$ with $k < d + 1$.
